Competent Authority:

Swedish Financial Supervisory Authority

Date of production:

25/08/2021

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type:

Specialized Investment fund in form of a SICAV-SIF

For this product, the foreign-exchange risk of the product currency is not hedged against the sub-fund's reference currency.

Objectives:

The Proxy P Renewable L/S Energy is a directional long/short fund investing in global listed equities within the renewable, energy transition and energy technology industries. The net exposure mainly consists of growth-oriented ESG/sustainable renewable energy and technology stocks.

This product is a capitalisation product meaning that income and capital gains are reinvested.

Intended retail investor:

This product is mainly targeted towards institutional investors.

This sub-fund was launched in 2018 and this product in 2020.

Term of product:

This product has no maturity date. However, the manufacturer may decide to close the product under certain circumstances.

The reference currency of the sub-fund is expressed in EUR.
The currency of the product is expressed in CHF.

What are the risks and what could I get in return?

Risk indicator:

We have classified this product as 5 out of 7, which is a medium-high risk class.

This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you.

The product is also exposed to the following materially relevant risks that are not included in the summary risk indicator:

Portfolio concentration risk: The fund is thematic and will always be exposed to the Renewable Energy sector. No FX hedging on share class level or individual positions.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios:

Investment 10,000.00 CHF		1 year	3 years	5 years (Recommended holding period)
Scenarios	What you might get back after costs			
Stress scenario	What you might get back after costs	5,177.13 CHF	5,163.32 CHF	4,156.66 CHF
	Average return each year	-48.23 %	-19.78 %	-16.10 %
Unfavourable scenario	What you might get back after costs	9,402.98 CHF	10,902.90 CHF	13,272.66 CHF
	Average return each year	-5.97 %	2.92 %	5.83 %
Moderate scenario	What you might get back after costs	11,644.76 CHF	15,786.57 CHF	21,401.55 CHF
	Average return each year	16.45 %	16.44 %	16.44 %
Favourable scenario	What you might get back after costs	14,415.35 CHF	22,848.81 CHF	34,495.49 CHF
	Average return each year	44.15 %	31.71 %	28.10 %

This table shows the money you could get back over the next 5 years (recommended holding period), under different scenarios, assuming that you invest 10,000.00 CHF.

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance

based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Proxy P Management AB is unable to pay out?

You may face a financial loss should the manufacturer and/or the depositary default. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

What are the costs?

Costs over time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest 10,000.00 CHF. The figures are estimates and may change in the future.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment 10,000.00 CHF Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in at the end of the recommended holding period
Total costs	214.00 CHF	886.48 CHF	2,040.34 CHF
Impact on return (RIY) per year	2.14 %	2.14 %	2.14 %

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

This table shows the impact on return per year			
One-off costs	Entry costs	0.00 %	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. This includes the costs of distribution of your product. The impact on return per year of this fee is calculated based on the maximum 0% entry fee you might pay when investing.
	Exit costs	0.00 %	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	0.40 %	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	1.74 %	The impact of the costs that we take each year for managing your investments. The percentage shown here is an estimate of the costs. The product's annual financial reports provide further details on the costs charged to the product during the relevant financial year.
Incidental costs	Performance fees	0.00 %	The fund manager will receive quarterly performance fee equal to 20% of any net new profits (over a 5% hurdle) realised by the sub-fund.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

You should be prepared to stay invested for 5 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer.

Redemptions are possible on a monthly basis. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can use different communication channels:

- by e-mail to info@proxypm.se
- by letter to Norrlandsgatan 16, 111 43 Stockholm Sweden
- by phone calling the number +46 8 12147 024

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim. More information is available on our website <http://www.proxypm.se/>.

Other relevant information

The issuing document of the product, the latest version of the Key Information Document as well as the latest annual and semi-annual report, may be obtained free of charge on <http://www.proxypm.se/>.
