

Proxy Renewable Long/Short Energy SEK A

Proxy Renewable Long/Short Energy is an actively managed AIF fund that invests globally in public equities in the renewable energy and energy tech sector. The fund utilizes both long and short positions but always has a long bias.

The investment strategy is based on a combination of a top down thematic approach and a bottom up fundamental value oriented approach. Macro, political, geographical and sector business fundamentals generates high conviction themes. Companies correlating to the specific themes are being analyzed in order to find the best investment opportunities.
